# NetReach™ CoolPed 3.0

## DSLAM Enclosure

## Key Features

- Increased cabinet size for improved splicing and thermal management
- Removable two-sided double doors permit easy interior access; wind latches provide stability during maintenance
- Two 216-type tool locking latches provided per side with padlock hasps for added security
- Screened louvered vents maximize heat dissipation and minimize contaminant ingression
- Dual mounting stakes and stabilizer bars are included for stake mounting application, although pad mounting is recommended
- Redesigned, free-breathing cap for maximum heat dissipation and improved structure
- Optional AC Power Box Kit available for non-line power applications

*NetReach™ CoolPed 3.0 DSLAM enclosures feature a free-breathing ventilation design that maximizes heat dissipation.*

## Description

The NetReach™ CoolPed 3.0 DSLAM Enclosure is designed to accommodate up to four environmentally hardened DSLAM modules and cable splicing. The CoolPed 3.0 is over 50% larger in size (total volume) than the CoolPed Plus for improved thermal and cable splicing management.

This well-vented enclosure safely houses up to four Adtran TA1100 series or Calix E3-48 DSLAM modules and requires use of the DSLAM supplier's mounting brackets/kits.

## Application

The NetReach™ CoolPed 3.0 serves as vented above ground housing for environmentally hardened DSLAM modules and cable splicing.

*NetReach™ CoolPed 3.0*
*(DSLAM modules shown are not included. AC Box Kit sold separately.)*
